Mobile Fence M500 + Corner Brackets + Tube-V

Specifications

Article Nr.	C0119000
Dimension	3500 x 2000 mm
Mesh width	40 x 160 mm
Material Fence	Steel
Finishing	Pre galvanized
Weight	24.5 Kg
Package quantity	68
Additional Tube	Vertical

**Fine-meshed mobile
fence**

Anti-climb feature

Safe and secure

Durable

Strong

The quality standard for temporary building fences

Developed and in production by Heras since 1998. The narrow meshes and the anti-climb protection offer extra security. Fewer accidents, less theft and less tampering make the M500 Anti Climb a very cost-effective investment.

The M500 Anti Climb is the safest and most durable mobile fence for event and building site protection. It is not for nothing that Heras makes this fence available for rental. The fence consists of 13 horizontal and 88 vertical wires. As an extra anti-climb feature, the wires protrude past the tube, so that climbing the fence would be quite a nasty procedure. The M500 Anti Climb is welded on all sides, giving the intrinsically strong frame an even longer service life.
