The choice of aesthetic

The Heras round top model has rounded corners at the top. The frame will be able to bend but will not break at the top corners. The friendly looking round top fence has no protruding points. The corners at the bottom are 100% welded all around and fitted with welded-in corner pieces.

The Heras round top model has, as the name suggests, rounded corners at the top. Because the top corners are curved, there is no weld here. The frame will be able to bend but will not break at the top corners. Because of this, the corners remain intact and the fence retains its functionality. The friendly looking round top fence has no protruding points. The corners at the bottom are 100% welded all around and fitted with welded-in corner pieces for optimal sturdiness.
