Simple

Certainty in the building process

The time-honoured cliché about 'the weakest link'. Because using a tie wrap to couple fencing panels is false economy. And in many countries it is not even allowed. Heras Mobile has the right fencing clamps, even those which can only be opened with a special key.

The Security coupler 42/42 is our standard fence coupler. The screws of the couplers are tightened on the inside of the site using a spanner. Everything for complete building site protection. Such as blocks and struts for stability. The revolutionary High Security coupler for better security or the customized stands for easy transport.
