Recycled footing with gap 40 lb

Specifications

Article Nr.	D0203
Dimension	2.5' W x 0.5' H x 0.81' D
Weight	40 lb
Material	Recycled plastic
Package quantity	24

Fast handling
Better working
conditions
Virtually indestructible
Stays neat and
representative

Plastic Heras block with openings for forklift prongs

Superior quality and optimum ease of handling.

The patented openings in the bottom have been designed specifically with an eye to the use of forklifts. The block weighs less than the statutory European maximum. Although these plastic blocks are 40% lighter than concrete blocks, their clever design enables you to create a very stable foundation. This block makes your work faster, more convenient and lighter.
